

# Technowood® SSS Guide Wire, BK Shape and Arm Rest

St. Luke's has steadfastly demonstrated a deep commitment to patient-oriented medical care and nursing services based on the spirit of Christianity for over a century. Physicians guide certified professionals from the Pharmaceutical, Interventional Radiology, Clinical Laboratory and Nutritional Science Departments in applying evidence-based, innovative technologies to oversee clinical test results for daily and emergency medical care and support operational management.

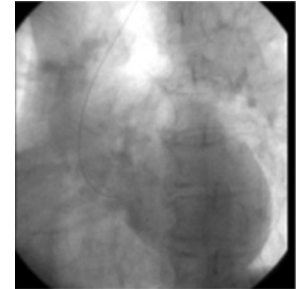

We merged our Cardiovascular Internal Medicine and Cardiovascular Surgery Departments into the Heart Center in 2001 and introduced leading-edge technologies into our Reproductive Surgery Center.

Cardiology Department  
Yutaro Nishi, M.D.  
Assistant Director

## Technowood SSS Guide Wire, BK Shape

We currently use Technowood SSS Guide Wire, BK shape, 2 mm. This Guide Wire, BK shape does not need a straightner and this alleviates headaches that many cardiologists face every day. Furthermore, inside the vessels this Guide Wire, BK shape is very unlikely to enter the side branches and performs like a "J" guide wire.

## Arm Rest

Itta Ooshima,  
M D

This Arm Rest holds the patient's arm in a secure position providing comfort for the patient. This Arm Rest slightly lifts the patient's arm. When physician performs left radial artery approach, it provides ease of approach.
